

Lipp

design Piero Lissoni

Sofa with backrest frame in double-paneled wood and armrests frame in plywood. Seat chassis in 30x50mm tubular steel with black epoxy powder coating, support in cross-woven, coated rubber elastic straps. Structure padded in differentiated density polyurethane foam and acrylic fibre layers, covered in 100% polyether thermally bonded onto a polyamide velveteen backing. Lumbar support inserted in the backrest structure, with multilayer frame padded in differentiated density polyurethane foam. Leather or fabric non removable "capitoné" working. Seat cushions in prewashed and sterilized goose down, stitched into separate compartments, with differentiated density polyurethane foam insert.

Additional loose quilted cushions, available in two sizes (50x50cm or 60x60cm), with fabric or leather upholstery, both fully removable by zippers. Tubular steel feet, joined by a bracket in square section 15x15mm, with bronzed epoxy powder coating.

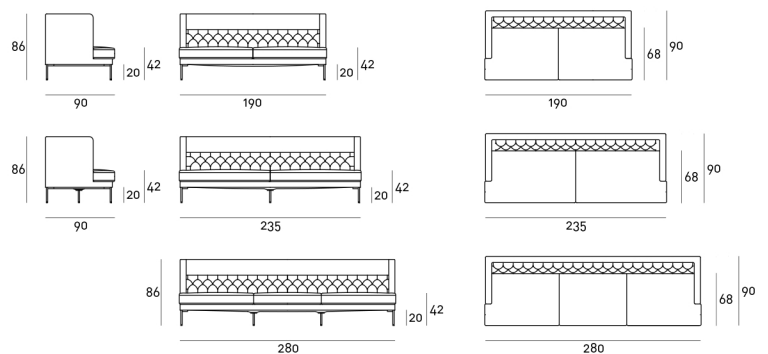

Fabric or leather upholstery, both fully removable by zippers and Velcro fastenings. All perimeter stitching are enhanced with edgings in "grosgrain" for the fabric version, and braided leather trim for the leather version.

Seat depth 68cm.

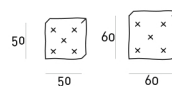

Bench with supporting frame in 30x50mm tubular steel with black epoxy powder coating and multilayer under seat panel. Tubular steel feet, joined by a bracket, in square section 15x15mm, with bronzed epoxy powder coating.

Padding in differentiated density polyurethane foam, covered with a quilted mat in prewashed and sterilized goose down, stitched into separate compartments.

Fabric or leather quilted upholstery, both fully removable by Velcro fastenings.
